We have spent a lot of time and effort to come up with this comprehensive handbook on Patent Laws. Although we have taken utmost care in preparing this handbook, it is possible that some mistake, error, omission or discrepancy might have crept it. We urge our readers to provide their feedback on the handbook that can improve the overall quality, style and presentation of the handbook in our forthcoming editions to enhance the learning experience.

This handbook is prepared for the purpose of quick reference for students and professionals. It is suggested that to avoid any doubt, the reader should cross-check all the facts, law and contents of this book with the original Government publication or notification, etc. or visit Indian Patent Office website for more information.

INTRODUCTION

We re-invented the Bare Act and the sweet co-incidence is that our first offering is on Patents. Traditionally printed in black and white, the Bare Act depicts the law in a hard to navigate format. We have made it better this time. We present the most comprehensive handbook for understanding the Indian Patent Laws. The handbook contains distinct colour-coded headings with relevant cross-references. The legislative history of all the preceding amendments are provided, which are helpful to understand the evolution of the law. The handbook also features relevant case laws under appropriate provisions.

This handbook on Patent Law, comprises the Patents Act, 1970, as amended by the Patents (Amendment) Act, 2005 and the Tribunal Reforms Act, 2021, along with, Patents Rules, 2003, as amended by the Patents (Amendment) Rules, 2021, the Intellectual Property Appellate Board (Patent Procedure) Rules, 2010, the Patents (Appeals and Applications to the Intellectual Property Appellate Board) Rules, 2011, and the Patents (Applications and Appeals to the Intellectual Property Appellate Board) Amended Rules, 2013.

Each provision is presented with a colour-coded heading for easy identification. Every provision of the Act and the Rules, which has a cross-reference to another section, rule, form or a schedule has been mentioned in the margin. Cross-reference to sections, rules, forms and schedules are mentioned as 'S.', 'R.', 'F' and 'Sch.', respectively.

A special thanks to Akhila V. P., Sai Ratna Manjari, P. S. Manjunathan, and Poulomi Sen who worked on the 2022 Edition.

CASE LAW

Patent is granted only for an invention which is new and useful, that is, it must have novelty and utility. **Biswanath Prasad Radhey Shyam v. Hindustan Metal Industries, AIR 1982 SC 1444 (1448): 1979 All LJ 290: PTC (Suppl) (1) 731 (SC).**

Novelty and an inventive step is a mixed question of law and fact. If the allegedly invention stated to be publicly known either by word of mouth or by publication through books or other media, then patent can't be granted. **Biswanath Prasad Radhey Shyam v. Hindustan Metal Industries, AIR 1982 SC 1444 (1449): 1979 All LJ 290: PTC (Suppl) (1) 731 (SC).**

Invention can be claimed either in Product or Process. In case of an article, the patent is in the end product and in the case of process, lies in the process by which it is arrived at. **Raj Parkash v. Mangat Ram Chowdhry and Ors, AIR 1987 Delhi 1(8) 1977: Rajdhani LR 440 (DB).**

Along with technical advancement, the allegedly invention should also not be obvious to the person skilled in the art. **F. Hoffmann-La Roche Ltd v. Cipla Ltd, 2012 (195) DLT 641 (674).**

Merely change of material in a traditional product “Kilta” from bamboo

(u) read as under:- “(u) “prescribed” means, in relation to proceedings before a High Court, prescribed by rules made by the High Court, and in other cases, prescribed by rules made under this Act;”

²⁰ Omitted by the Tribunals Reforms Act, 2021 (w.e.f. 04-04-2021)”

to plastic and development of nylon straps with buckles can't be said to be an innovative step. **Dhanpat Seth & Others v. Nil Kamal Plastic Crates, AIR 2008 HP 23 (25): 2008 AIHC (NOC) 212 (DB): 2006 (33) PTC 339(HP).**

 - (a) the invention, so far as claimed in any claim of the complete specification, was obtained from the opponent in the manner set out in clause (a) of sub-section (2) of section 25 and revokes the patent on that ground, he may, on request by such opponent made in the prescribed manner, direct that the patent shall stand amended in the name of the opponent;
 - (b) a part of an invention described in the complete specification was so obtained from the opponent, he may pass an order requiring that the specification be amended by the exclusion of that part of the invention.
- (2) Where an opponent has, before the date of the order of the Controller requiring the amendment of a complete specification referred to in clause (b) of sub-section (1), filed an application for a patent for an invention which included the whole or a part of the invention held to have been

 - (b) that the application for the patent is a direct consequence of his being the inventor, the Controller shall, subject to the provisions of this section, cause him to be mentioned as inventor in any patent granted in pursuance of the application in the complete specification and in the register of patents:

Provided that the mention of any person as inventor under this section shall not confer or derogate from any rights under the patent.

- (7) Where any person has been mentioned as inventor in pursuance of this section, any other person who alleges that he ought not to have been so mentioned may at any time apply to the Controller for a certificate to that effect, and the Controller may, after hearing, if required, any person whom he may consider to be interested, issue such a certificate, and if he does so, he shall rectify the specification and the register accordingly.

for defence purposes, or, where otherwise the invention appears to him to be so relevant, he may give directions for prohibiting or restricting the publication of information with respect to the invention or the communication of such information⁸⁶[***].

- (2) Where the Controller gives any such directions as are referred to in sub-section (1), he shall give notice of the application and of the directions to the Central Government, and the Central Government shall, upon receipt of such notice, consider whether the publication of the invention would be prejudicial to the defence of India, and if upon such consideration, it appears to it that the publication of the invention would not so prejudice, give notice to the Controller to that effect, who shall thereupon revoke the directions and notify the applicant accordingly.
- (3) Without prejudice to the provisions contained in sub-section (1), where the Central Government is of opinion that an invention in respect of which the Controller has not given any directions under sub-section (1), is relevant for defence purposes, it may at any time before⁸⁷[grant of patent] notify the Controller to that effect, and thereupon the provisions of that sub-section shall apply as if the invention were one of the class notified by the Central Government, and accordingly the Controller shall give notice to the Central Government of the directions issued by him.

S. 118

36. Secrecy directions to be periodically reviewed

- ⁸⁸[(1) The question whether an invention in respect of which directions have been given under section 35 continues to be relevant for defence purposes shall be reconsidered by the Central Government at intervals of⁸⁹[six months] or on a request made by the applicant which is found to be reasonable by the Controller and if, on such reconsideration it appears to the Central Government that the publication of the invention would no longer be prejudicial to the defence of India or in case of an application filed by a foreign applicant it is found that the invention is published outside India, it shall forthwith give notice to the Controller to revoke the direction and the Controller shall thereupon revoke the directions previously given by him.]

- if, during the continuance in force of the directions, any use of the invention is made by or on behalf of, or to the order of the Government, the provisions of sections 100, 101 and 103 shall apply in relation to that use as if the patent had been granted for the invention; and
 - if it appears to the Central Government that the applicant for the patent has suffered hardship by reason of the continuance in force of the directions, the Central Government may make to him such payment (if any) by way of solatium as appears to the Central Government to be reasonable having regard to the novelty and utility of the invention and the purpose for which it is designed, and to any other relevant circumstances.
- (3) Where a patent is granted in pursuance of an application in respect of which directions have been given under section 35, no renewal fee shall be payable in respect of any period during which those directions were in force.

38. Revocation of secrecy directions and extension of time

CASE LAW

If the patent is new and its validity has not been established in judicial proceeding till then, and doubts have been raised to show that the patent ought not to have been granted, the court will not interfere by issuing a temporary injunction. **V Manioka Thevar v. Star Plough Works, Melur, AIR 1965 Mad 327: (1965) 1 MLJ 406.**

The application for a revocation of a patent under section 64 can only be filed by "a person who is interested". **UCB Farchim SA v. Cipla Ltd & Ors., 2010 (167) DLT 459 (464).**

Under section 64, "a person interested" means a person who has a direct, present and tangible commercial interest or public interest which is affected by continuance of the patent in question. **Ajay Industrial Corporation v. Shiro Kanao of Ibaraki City, AIR 1983 Delhi: 496 (507) (DB): 1983 (3) PTC 245 (Del).**

One cannot claim revocation of patent by making allegation that patent embodies no discovery or invention without submitting any technical or expert evidence to support the allegation. **Ajay Industrial Corporation Vs. Shiro Kanao of Ibaraki City. AIR 1983 Delhi: 496 (507) (DB): 1983 (3) PTC 245 (Del).**

When damages are claimed for infringement the defendant can resist the suit on the ground that he was not aware of existence of such patent or had not reasonable means of knowing existence of the patent. And question over the validity of the patent can also be raised as a defence. **Indian Hume Pipe Co. Ltd v. Vendra Venkanna, AIR 1963 AP 58 (61) (DB).**

Even if a particular defendant did not raise opposition during pre-grant and post-grant stages, even then also, the legislature permits such defendant to question the validity of the patent during an infringement suit stage. **F. Hoffmann-LA Roche Ltd. and Anr. v. Cipla Ltd., 2009 (154) DLT 243 (267) (DB).**

Once the defendant already sought revocation of patent in an infringement suit through a counter-claim, then he cannot thereafter in his capacity as "any person interested" assail the concerned patent, by a way of revocation. **Dr. Aloys Wobben v. Yogesh Mehra, (2014) 15 SCC 360: AIR 2014 SC 2210.**

Section 64 provides two remedies for interested person. He can file a revocation petition or raise a counter-claim in infringement suit. **Dr. Aloys Wobben v. Yogesh Mehra, (2014) 15 SCC 360: AIR 2014 SC 2210.**

WORKING OF PATENTS, COMPULSORY LICENCES AND REVOCATION

82. Definitions of “patented articles” and “patentee”

In this Chapter, unless the context otherwise requires,-

- (a) “patented article” includes any article made by a patented process;
- and
- (b) “patentee” includes an exclusive licensee.

83. General principles applicable to working of patented inventions

S. 92(2)

Without prejudice to the other provisions contained in this Act, in exercising the powers conferred by this Chapter, regard shall be had to the following

¹⁶⁴ Inserted by The Patents (Amendment) Act, 2002, S. 37 (w.e.f. 20.05.2003).

¹⁶⁵ Substituted by The Patents (Amendment) Act, 2002, S. 39 for Chapter XVI (sections 82 to 98) (w.e.f. 20.5.2003).

general considerations, namely:

- (a) that patents are granted to encourage inventions and to secure that the inventions are worked in India on a commercial scale and to the fullest extent that is reasonably practicable without undue delay;
- (b) that they are not granted merely to enable patentees to enjoy a monopoly for the importation of the patented article;
- (c) that the protection and enforcement of patent rights contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge and in a manner conducive to social and economic welfare, and to a balance of rights and obligations;
- (d) that patents granted do not impede protection of public health and nutrition and should act as instrument to promote public interest specially in sectors of vital importance for socio-economic and technological development of India;
- (e) that patents granted do not in any way prohibit Central Government in taking measures to protect public health;
- (f) that the patent right is not abused by the patentee or person deriving title or interest on patent from the patentee, and the patentee or a person deriving title or interest on patent from the patentee does not resort to practices which unreasonably restrain trade or adversely affect the international transfer of technology; and
- (g) that patents are granted to make the benefit of the patented invention available at reasonably affordable prices to the public.

84. Compulsory licences

- (1) At any time after the expiration of three years from the date of the ¹⁶⁶[grant] of a patent, any person interested may make an application to the Controller for grant of compulsory licence on patent on any of the following grounds, namely:-
 - (a) that the reasonable requirements of the public with respect to the patented invention have not been satisfied, or
 - (b) that the patented invention is not available to the public at a reasonably affordable price, or
 - (c) that the patented invention is not worked in the territory of India.
- (2) An application under this section may be made by any person notwithstanding that he is already the holder of a licence under the patent and no person shall be estopped from alleging that the reasonable requirements of the public with respect to the patented invention are not satisfied or that the patented invention is not worked in the territory of India or that the patented invention is not available to the public at a reasonably affordable price by reason of any admission made by him, whether in such a licence or otherwise or by reason of his having accepted such a licence.
- (3) Every application under sub-section (1) shall contain a statement setting out the nature of the applicant's interest together with such particulars

as may be prescribed and the facts upon which the application is based.

- (4) The Controller, if satisfied that the reasonable requirements of the public with respect to the patented invention have not been satisfied or that the patented invention is not worked in the territory of India or that the patented invention is not available to the public at a reasonably affordable price, may grant a licence upon such terms as he may deem fit.
- (5) Where the Controller directs the patentee to grant a licence he may, as incidental thereto, exercise the powers set out in section 88.
- (6) In considering the application filed under this section, the Controller shall take into account,-
 - (i) the nature of the invention, the time which has elapsed since the sealing of the patent and the measures already taken by the patentee or any licensee to make full use of the invention;
 - (ii) the ability of the applicant to work the invention to the public advantage;
 - (iii) the capacity of the applicant to undertake the risk in providing capital and working the invention, if the application were granted;
 - (iv) as to whether the applicant has made efforts to obtain a licence from the patentee on reasonable terms and conditions and such efforts have not been successful within a reasonable period as the Controller may deem fit:

Provided that this clause shall not be applicable in case of national emergency or other circumstances of extreme urgency or in case of public non-commercial use or on establishment of a ground of anti-competitive practices adopted by the patentee,
but shall not be required to take into account matters subsequent to the making of the application.

¹⁶⁷[Explanation.—For the purposes of clause (iv), “reasonable period” shall be construed as a period not ordinarily exceeding a period of six months.]

- (7) For the purposes of this Chapter, the reasonable requirements of the public shall be deemed not to have been satisfied-
 - (a) if, by reason of the refusal of the patentee to grant a licence or licences on reasonable terms,-
 - (i) an existing trade or industry or the development thereof or the establishment of any new trade or industry in India or the trade or industry of any person or class of persons trading or manufacturing in India is prejudiced; or
 - (ii) the demand for the patented article has not been met to an adequate extent or on reasonable terms; or
 - (iii) a market for export of the patented article manufactured in India is not being supplied or developed; or
 - (iv) the establishment or development of commercial activities in India is prejudiced; or
 - (b) if, by reason of conditions imposed by the patentee upon the grant of licences under the patent or upon the purchase, hire or use of the patented article or process, the manufacture, use or sale of materials not protected by the patent, or the establishment or

- (c) development of any trade or industry in India, is prejudiced; or if the patentee imposes a condition upon the grant of licences under the patent to provide exclusive grant back, prevention to challenges to the validity of patent or coercive package licensing, or
- (d) if the patented invention is not being worked in the territory of India on a commercial scale to an adequate extent or is not being so worked to the fullest extent that is reasonably practicable, or
- (e) if the working of the patented invention in the territory of India on a commercial scale is being prevented or hindered by the importation from abroad of the patented article by-
 - (i) the patentee or persons claiming under him; or
 - (ii) persons directly or indirectly purchasing from him; or
 - (iii) other persons against whom the patentee is not taking or has not taken proceedings for infringement.

85. Revocation of patents by the Controller for non-working

S. 86, 87, 117A(2)
R. 62, 96-99
S. 84, 85

- (1) Where, in respect of a patent, a compulsory licence has been granted, the Central Government or any person interested may, after the expiration of two years from the date of the order granting the first compulsory licence, apply to the Controller for an order revoking the patent on the ground that the patented invention has not been worked in the territory of India or that reasonable requirements of the public with respect to the patented invention has not been satisfied or that the patented invention is not available to the public at a reasonably affordable price.
- (2) Every application under sub-section (1) shall contain such particulars as may be prescribed, the facts upon which the application is based, and, in the case of an application other than by the Central Government, shall also set out the nature of the applicant's interest.
- (3) The Controller, if satisfied that the reasonable requirements of the public with respect to the patented invention have not been satisfied or that patented invention has not been worked in the territory of India or that the patented invention is not available to the public at a reasonably affordable price, may make an order revoking the patent.
- (4) Every application under sub-section (1) shall ordinarily be decided within one year of its being presented to the Controller.

86. Power of Controller to adjourn applications for compulsory licences, etc., in certain cases

- (1) Where an application under section 84 or section 85, as the case may be, is made on the grounds that the patented invention has not been worked in the territory of India or on the ground mentioned in clause (d) of sub-section (7) of section 84 and the Controller is satisfied that the time which has elapsed since the sealing of the patent has for any reason been insufficient to enable the invention to be worked on a commercial scale to an adequate extent or to enable the invention to be so worked to the fullest extent that is reasonably practicable, he may, by order, adjourn the further hearing of the application for such period not exceeding twelve months in the aggregate as appears to him to be sufficient for the invention to be so worked:

Provided that in any case where the patentee establishes that the reason why a patented invention could not be worked as aforesaid before the date of the application was due to any State or Central Act or any rule or regulation made thereunder or any order of the Government imposed otherwise than by way of a condition for the working of the invention in the territory of India or for the disposal of the patented articles or of the articles made by the process or by the use of the patented plant, machinery, or apparatus, then, the period of adjournment ordered under this sub-section shall be reckoned from the date on which the period during which the working of the invention was prevented by such Act, rule or regulation or order of Government as computed from the date of the application, expires.

- (2) No adjournment under sub-section (1) shall be ordered unless the Controller is satisfied that the patentee has taken with promptitude adequate or reasonable steps to start the working of the invention in the territory of India on a commercial scale and to an adequate extent.

87. Procedure for dealing with applications under sections 84 and 85

- (1) Where the Controller is satisfied, upon consideration of an application under section 84, or section 85, that a *prima facie* case has been made out for the making of an order, he shall direct the applicant to serve copies of the application upon the patentee and any other person appearing from the register to be interested in the patent in respect of which the application is made, and ¹⁶⁸[shall publish the application in the official journal.]
- (2) The patentee or any other person desiring to oppose the application may, within such time as may be prescribed or within such further time as the Controller may on application (made either before or after the expiration of the prescribed time) allow, give to the Controller notice of opposition.
- (3) Any such notice of opposition shall contain a statement setting out the grounds on which the application is opposed.
- (4) Where any such notice of opposition is duly given, the Controller shall notify the applicant, and shall give to the applicant and the opponent an opportunity to be heard before deciding the case.

88. Powers of Controller in granting compulsory licences

- (1) Where the Controller is satisfied on an application made under section 84 that the manufacture, use or sale of materials not protected by the patent is prejudiced by reason of conditions imposed by the patentee upon the grant of licences under the patent, or upon the purchase, hire or use of the patented article or process, he may, subject to the provisions of that section, order the grant of licences under the patent to such customers of the applicant as he thinks fit as well as to the applicant.
- (2) Where an application under section 84 is made by a person being the holder of a licence under the patent, the Controller may, if he makes an order for the grant of a licence to the applicant, order the existing licence to be cancelled, or may, if he thinks fit, instead of making an order for

- (3) Where two or more patents are held by the same patentee and an applicant for a compulsory licence establishes that the reasonable requirements of the public have not been satisfied with respect to some only of the said patents, then, if the Controller is satisfied that the applicant cannot efficiently or satisfactorily work the licence granted to him under those patents without infringing the other patents held by the patentee and if those patents involve important technical advancement of considerable economic significance in relation to the other patents, he may, by order, direct the grant of a licence in respect of the other patents also to enable the licensee to work the patent or patents in regard to which a licence is granted under section 84.
- (4) Where the terms and conditions of a licence have been settled by the Controller, the licensee may, at any time after he has worked the invention on a commercial scale for a period of not less than twelve months, make an application to the Controller for the revision of the terms and conditions on the ground that the terms and conditions settled have proved to be more onerous than originally expected and that in consequence thereof the licensee is unable to work the invention except at a loss:
Provided that no such application shall be entertained a second time.

R. 100, 101

89. General purposes for granting compulsory licences

S. 84, 92(2);

The powers of the Controller upon an application made under section 84 shall be exercised with a view to securing the following general purposes, that is to say,-

- (a) that patented inventions are worked on a commercial scale in the territory of India without undue delay and to the fullest extent that is reasonably practicable;
- (b) that the interests of any person for the time being working or developing an invention in the territory of India under the protection of a patent are not unfairly prejudiced.

90. Terms and conditions of compulsory licences

S. 84, 92(2);

- (1) In settling the terms and conditions of a licence under section 84, the Controller shall endeavour to secure-
 - (i) that the royalty and other remuneration, if any, reserved to the patentee or other person beneficially entitled to the patent, is reasonable, having regard to the nature of the invention, the expenditure incurred by the patentee in making the invention or in developing it and obtaining a patent and keeping it in force and other relevant factors;
 - (ii) that the patented invention is worked to the fullest extent by the person to whom the licence is granted and with reasonable profit to him;
 - (iii) that the patented articles are made available to the public at reasonably affordable prices;
 - (iv) that the licence granted is a non-exclusive licence;
 - (v) that the right of the licensee is non-assignable;

- (vi) that the licence is for the balance term of the patent unless a shorter term is consistent with public interest;
 - ¹⁶⁹[(vii) that the licence is granted with a predominant purpose of supply in the Indian market and that the licensee may also export the patented product, if need be in accordance with the provisions of sub-clause (iii) of clause (a) of sub-section (7) of section 84;
 - (viii) that in the case of semi-conductor technology, the licence granted is to work the invention for public non-commercial use;
 - (ix) that in case the licence is granted to remedy a practice determined after judicial or administrative process to be anti-competitive, the licensee shall be permitted to export the patented product, if need be.]
- (2) No licence granted by the Controller shall authorise the licensee to import the patented article or an article or substance made by a patented process from abroad where such importation would, but for such authorisation, constitute an infringement of the rights of the patentee.
- (3) Notwithstanding anything contained in sub-section (2), the Central Government may, if in its opinion it is necessary so to do, in the public interest, direct the Controller at any time to authorise any licensee in respect of a patent to import the patented article or an article or substance made by a patented process from abroad (subject to such conditions as it considers necessary to impose relating among other matters to the royalty and other remuneration, if any, payable to the patentee, the quantum of import, the sale price of the imported article and the period of importation), and thereupon the Controller shall give effect to the directions.

- (2) No order under sub-section (1) shall be made unless the Controller is satisfied-
 - (i) that the applicant is able and willing to grant, or procure the grant to the patentee and his licensees if they so desire, of a licence in respect of the other invention on reasonable terms; and
 - (ii) that the other invention has made a substantial contribution to the establishment or development of commercial or industrial activities in the territory of India.

 - (ii) in settling the terms and conditions of a licence granted under this section, the Controller shall endeavour to secure that the articles manufactured under the patent shall be available to the public at the lowest prices consistent with the patentee deriving a reasonable advantage from their patent rights.
- (2) The provisions of sections 83, 87, 88, 89 and 90 shall apply in relation to the grant of licences under this section as they apply in relation to the grant of licences under section 84.

- (a) if the patentee is a party to the proceedings, petition by way of counter-claim for revocation of the patent on any ground upon which a patent may be revoked under section 64; and
 - (b) whether a patentee is or is not a party to the proceedings, put in issue the validity of the patent without petitioning for its revocation.
- (3) If in such proceedings as aforesaid any question arises whether an invention has been recorded, tested or tried as is mentioned in section 100, and the disclosure of any document regarding the invention, or of any evidence of the test or trial thereof, would, in the opinion of the Central Government, be prejudicial to the public interest, the disclosure may be made confidentially to the advocate of the other party or to an independent expert mutually agreed upon.

SUITS CONCERNING INFRINGEMENT OF PATENTS

104. Jurisdiction

No suit for a declaration under section 105 or for any relief under section 106 or for infringement of a patent shall be instituted in any court inferior to a district court having jurisdiction to try to suit:

S. 105, 106, 113

Provided that where a counter-claim for revocation of the patent is made by the defendant, the suit, along with the counter-claim, shall be transferred to the High Court for decision.

CASE LAW

When a person infringes a patent by making the article himself or by his agent or servant, then action can be taken against the servants and agents individually or collectively along with their employer and principal. **Rohtas Industries Ltd. and Ors v. Indian Hume Pipe Co. Ltd.**, AIR 1954 Pat 492 (497) (DB).

Delay in filing infringement suit can disentitle plaintiffs' to relief of perpetual injunction, if it has capacity to create considerable loss or prejudice to defendants. **Farbewerke Hoechst Aktiengesellschaft v. Unichem Laboratories**, AIR 1969 Bom 255 (260).

The proviso to section 104 is an exception to the general rule, it needs to be construed strictly. Jurisdiction of District Court is ousted only when there is a counter claim seeking renovation of patent. **Fabcon v Industrial Engineering Corporation**, AIR 1987 All 338 (339): 1986 All WC 420.

In a suit for infringement of patent, the plaintiff has to prove that his process has been counterfeited or imitated by the defendants. He must give the particulars of the breaches constituting the alleged infringement of his patent rights. **Lallubhai Chakubhai Jariwala v. Chimanlal Chunilal and Co**, AIR 1936 Bom 99 (100,101).

In a suit for infringement of patent, the plaintiff must prove that the patent is being infringed by resorting to a process patented by him. He need to make it clear that the article is the same which was seized and to have been produced by defendant is of Plaintiff's. **The Bombay Agarwal Co. v. Ramchand Diwanchand and Anr.**, AIR 1953 Nag 154 (157, 158) (DB).

Where a counter claim for revocation of patent is made by the defendant, the suit along with counter claim would be transferred to the High Court. **SERGI Transformers Explosion Prevention Technologies Pvt. Ltd. v. CTR Manufacturing Industries Ltd.**, 2011 (47) PTC 521.

¹⁸⁰[104A. Burden of proof in case of suits concerning infringement

- (1) In any suit for infringement of a patent, where the subject matter of patent is a process for obtaining a product, the court may direct the defendant to prove that the process used by him to obtain the product, identical to the product of the patented process, is different from the patented process if,-
 - (a) the subject matter of the patent is a process for obtaining a new

- product; or
- (b) there is a substantial likelihood that the identical product is made by the process, and the patentee or a person deriving title or interest in the patent from him, has been unable through reasonable efforts to determine the process actually used:

Provided that the patentee or a person deriving title or interest in the patent from him, first proves that the product is identical to the product directly obtained by the patented process.

- (2) In considering whether a party has discharged the burden imposed upon him by sub-section (1), the court shall not require him to disclose any manufacturing or commercial secrets, if it appears to the court that it would be unreasonable to do so.]

S. 104, 151(2)

105. Power of Court to make declaration as to non-infringement

- (1) Notwithstanding anything contained in section 34 of the Specific Relief Act, 1963(47 of 1963), any person may institute a suit for a declaration that the use by him of any process, or the making, use or sale of any article by him does not, or would not, constitute an infringement of a claim of a patent against the patentee or the holder of an exclusive licence under the patent, notwithstanding that no assertion to the contrary has been made by the patentee or the licensee, if it is shown -
- (a) that the plaintiff has applied in writing to the patentee or exclusive licensee for a written acknowledgement to the effect of the declaration claimed and has furnished him with full particulars in writing of the process or article in question; and
 - (b) that the patentee or licensee has refused or neglected to give such an acknowledgement.
- (2) The costs of all parties in a suit for a declaration brought by virtue of this section shall, unless for special reasons the court thinks fit to order otherwise, be paid by the plaintiff.
- (3) The validity of a claim of the specification of a patent shall not be called in question in a suit for a declaration brought by virtue of this section, and accordingly the making or refusal of such a declaration in the case of a patent shall not be deemed to imply that the patent is valid or invalid.
- (4) A suit for a declaration may be brought by virtue of this section at any time ¹⁸¹[after the publication of grant of a patent], and references in this section to the patentee shall be construed accordingly.

106. Power of Court to grant relief in cases of groundless threat of infringement proceedings

- (1) Where any person (whether entitled to or interested in a patent or an application for a patent or not) threatens any other person by circulars or advertisements or by communications, oral or in writing addressed to that or any other person, with proceedings for infringement of a patent, any person aggrieved thereby may bring a suit against him praying for the following reliefs, that is to say -
- (a) a declaration to the effect that the threats are unjustifiable;

¹⁸¹ Substituted by The Patents (Amendment) Act, 2005, S. 57, for "after the date of advertisement of acceptance of the complete specification of a patent" (w.e.f. 01.01.2005).

- (b) an injunction against the continuance of the threats; and
 - (c) such damages, if any, as he has sustained thereby.
- (2) Unless in such suit the defendant proves that the acts in respect of which the proceedings were threatened constitute or, if done, would constitute, an infringement of a patent or of rights arising from the publication of a complete specification in respect of a claim of the specification not shown by the plaintiff to be invalid, the court may grant to the plaintiff all or any of the reliefs prayed for.
- Explanation.* – A mere notification of the existence of a patent does not constitute a threat of proceeding within the meaning of this section.

CASE LAW

Suppression of material facts can be a reason to refuse Injunction. **Standipack Pvt. Ltd v. Oswal Trading Co. Ltd, AIR 2000 Del 23: 1999(19) PTC 479 (Del).**

Injunction cannot be granted if the validity of patent is questioned at the time of moving revocation application. **Standipack Pvt. Ltd v. Oswal Trading Co. Ltd, AIR 2000 Del 23: 1999 (19) PTC 479 (Del).**

107. Defences, etc., in suits for infringement

- (1) In any suit for infringement of a patent, every ground on which it may be revoked under section 64 shall be available as a ground for defence. S. 64
- (2) In any suit for infringement of a patent by the making, using or importation of any machine, apparatus or other article or by the using of any process or by the importation, use or distribution of any medicine or drug, it shall be a ground for defence that such making, using importation or distribution is in accordance with any or more of the conditions specified in section 47. S. 47

CASE LAW

If a foreigner who got his patents registered in India does not keep them in use in India and thereby seriously affected market and economy of India, cannot seek temporary injunction for restraining others from using the patented devices. **Franz Xaver Huemer v. New Yash Engineers, AIR 1997 (Del) 79(85): ILR (1996) 2 Delhi 791 (DB).**

The defendant cannot plead that the plaintiff has no locus standi to institute proceeding for infringement of patent without claiming to be the owner of the patent or without filing any petition or counter-claim. By merely raising the plea that the plaintiff's registration is improper. **Schnieder Electric Industries SA v Telemecanique and Controls (I) Ltd., 2000(20) PTC 620 (Del).**

(b) importation of patented products by any person from a person¹⁸⁵[who is duly authorised under the law to produce and sell or distribute the product],
shall not be considered as an infringement of patent rights.]

CASE LAW

There is no outer limit in respect of the period for which the Appellate Board may condone the delay. The delay can be condoned upon being satisfied that sufficient cause for extending the time for preferring an appeal has been disclosed. **Gilead Sciences v. IPAB, 2012 (188) DLT 437 (445).**

108. Reliefs in suits for infringement

- ¹⁸⁶[(1) The reliefs which a court may grant in any suit for infringement include an injunction (subject to such terms, if any, as the court thinks fit) and, at the option of the plaintiff, either damages or an account of profits.]
- ¹⁸⁷[(2) The court may also order that the goods which are found to be infringing and materials and implement, the predominant use of which is in the creation of infringing goods shall be seized, forfeited or destroyed, as the court deems fit under the circumstances of the case without payment of any compensation.]

CASE LAW

When the Plaintiff suppressed factum of earlier application before Delhi High Court and its rejection, then it means he is not coming to Court with clean hands. Therefore, not entitled to discretionary relief of Injunction. **Ravi Kamal Bali v Kala Tech and Ors., (2008) 5 Bom CR 138.**

Injunction cannot be granted as a matter of course. It can be refused, where the plaintiff can be adequately compensated in terms of money or the court can sufficiently protect the interest of the plaintiffs by passing certain other directions. **Vringo Infrastructure v. Indiamart Intermesh, (60) PTC 437 (Del).**

Where the allegedly infringement was not novel at the date of patent and it is not exploited by the patentee, then the damages, if any suffered could be provisionally quantified, hence temporary injunction rejected. **Hindustan Lever Limited v Godrej Soaps Limited and others, AIR 1996 Cal 367 (383).**

109. Rights of exclusive licensee to take proceedings against infringement

- (1) The holder of an exclusive licence shall have the like right as the patentee to institute a suit in respect of any infringement of the patent committed after the date of the licence, and in awarding damages or an account of profits or granting any other relief in any such suit the court shall take into consideration any loss suffered or likely to be suffered by the exclusive licensee as such or, as the case may be, the profits carried by means of the infringement so far as it constitutes an infringement of the rights of the exclusive licensee as such.
- (2) In any suit for infringement of a patent by the holder of an exclusive licence under sub-section (1), the patentee shall, unless he has joined as a plaintiff in the suit, be added as a defendant, but a patentee so added as defendant shall not be liable for any costs unless he enters an appearance and takes part in the proceedings.

110. Right of licensee under section 84 to take proceedings against infringement

Any person to whom a licence has been granted under section 84 shall be entitled to call upon the patentee to take proceedings to prevent any infringement of the patent, and, if the patentee refuses or neglects to do so within two months after being so called upon, the licensee may institute proceedings for the infringement in his own name as though he were the patentee, making the patentee a defendant; but a patentee so added as defendant shall not be liable for any costs unless he enters an appearance and takes part in the proceedings.

S. 84

111. Restriction on power of Courts to grant damages or account of profits for infringement

- (1) In a suit for infringement of a patent, damages or an account of profits shall not be granted against the defendant who proves that at the date of the infringement he was not aware and had no reasonable grounds for believing that the patent existed.

Explanation – A person shall not be deemed to have been aware or to have had reasonable grounds for believing that a patent exists by reason only of the application to an article of the word “patent”, “patented” or any word or words expressing or implying that a patent has been obtained for the article, unless the number of the patent accompanies the word or words in question.

- (2) In any suit for infringement of a patent the court may, if it thinks fit, refuse to grant any damages or an account of profits in respect of any infringement committed after a failure to pay any renewal fee within the prescribed period and before any extension of that period.
- (3) Where an amendment of a specification by way of disclaimer, correction or explanation has been allowed under this Act after the publication of the specification, no damages or account of profits shall be granted in any proceeding in respect of the use of the invention before the date of the decision allowing the amendment, unless the court is satisfied that the

specification as originally published was framed in good faith and with reasonable skill and knowledge.

- (4) Nothing in this section shall affect the power of the court to grant an injunction in any suit for infringement of a patent.

112. ¹⁸⁸[Omitted by the Patents (Amendment) Act, 2002].

113. Certificate of validity of specification and costs of subsequent suits for infringement thereof

¹⁸⁹[(1) If in any proceedings before ¹⁹⁰[***] a High Court for the revocation of a patent under section 64 and section 104, ¹⁹¹[***], the validity of any claim of a specification is contested and that claim is found by [***] the High Court to be valid, [***] the High Court may certify that the validity of that claim was contested in those proceedings and was upheld.]

S. 64, 104

(2) Where any such certificate has been granted, then, if in any subsequent suit before a court for infringement of that claim of the patent or in any subsequent proceeding for revocation of the patent in so far as it relates to that claim, the patentee or other person relying on the validity of the claim obtains a final order or judgement in his favour, he shall be entitled to an order for the payment of his full costs, charges and expenses of and incidental to any such suit or proceeding properly incurred so far as they concern the claim in respect of which the certificate was granted, unless the court trying the suit or proceeding otherwise directs:

Provided that the costs as specified in this sub-section shall not be ordered when the party disputing the validity of the claim satisfies the court that he was not aware of the grant of the certificate when he raised the dispute and withdrew forthwith such defence when he became aware of such a certificate.

¹⁹²[(3) Nothing contained in this section shall be construed as authorising

¹⁸⁸ Prior to its omission, S. 112 read as under: - “*112. Restriction on power of Court to grant injunction in certain cases.* –If in proceedings for the infringement of a patent endorsed or deemed to be endorsed with the words “Licences of right” (otherwise than by the importation of the patented article from other countries) the infringing defendant is ready and willing to take a licence upon terms to be settled by the Controller as provided in section 88, no injunction shall be granted against him, and the amount if any recoverable against him by way of damages shall not exceed double the amount which would have been recoverable against him as licensee if such a licence had been granted before the earliest infringement.”

the courts¹⁹³ [***] hearing appeals from decrees or orders in suits for infringement or petitions for revocation, as the case may be, to pass orders for costs on the scale referred to therein.]

114. Relief for infringement of partially valid specification

- (1) If in proceedings for infringement of a patent it is found that any claim of the specification, being a claim in respect of which infringement is alleged, is valid, but that any other claim is invalid, the court may grant relief in respect of any valid claim which is infringed:
Provided that the court shall not grant relief except by way of injunction save in the circumstances mentioned in sub-section (2).
- (2) Where the plaintiff proves that the invalid claim was framed in good faith and with reasonable skill and knowledge, the court shall grant relief in respect of any valid claim which is infringed subject to the discretion of the court as to costs and as to the date from which damages or an account of profits should be reckoned, and in exercising such discretion the court may take into consideration the conduct of the parties in inserting such invalid claims in the specification or permitting them to remain there.

115. Scientific advisers

- (1) In any suit for infringement or in any proceeding before a court under this Act, the court may at any time, and whether or not an application has been made by any party for that purpose, appoint an independent scientific adviser to assist the court or to inquire and report upon any such question of fact or of opinion (not involving a question of interpretation of law) as it may formulate for the purpose.
- (2) The remuneration of the scientific adviser shall be fixed by the court and shall include the costs of making a report and a proper daily fee for any day on which the scientific adviser may be required to attend before the court, and such remuneration shall be defrayed out of moneys provided by Parliament by law for the purpose.
